

CMA PRODUCT IMPROVEMENT

Effective Date: MARCH 2015
Log Number: CMA-PI-461
Subject: E & EST NEW CONTROL BOX
Models Affected: E & EST

NEW E & EST TALLER CONTROL BOX

CMA has enlarged the E & EST Control Box, providing more space to simplify the servicing of components within the Control Box. The additional height allows extra space to include the “prime switches” over each of the three Peri-Pump assemblies. In addition to an overall larger Control Box, CMA has also reinforced the leg structure of the Control Box.
