

# SERVICE BULLETIN

Effective Date: MARCH 2015

Log Number: 128

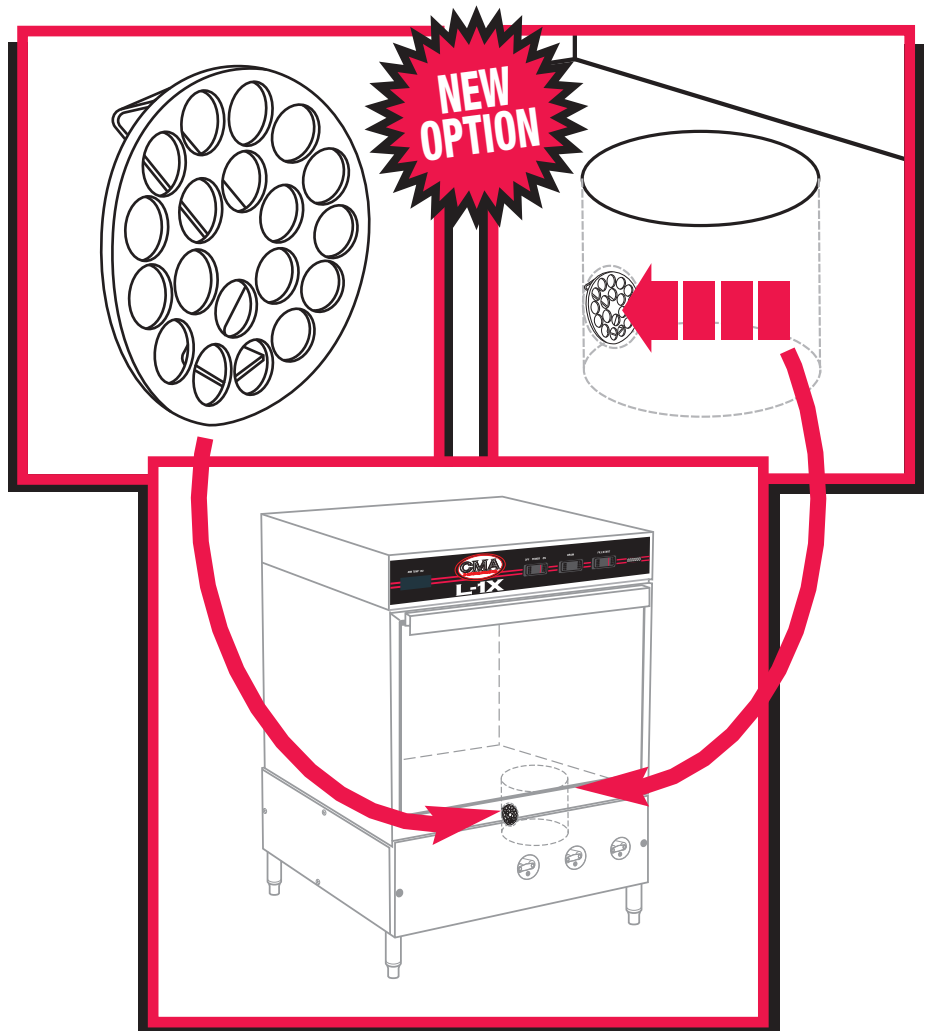

Subject: SNAP-IN SECONDARY SCREEN P/N 4110.10

Models Affected: L-1X, L-1X16, L-1C, GL-X

## Snap-In Secondary Screen

At the special request of customers, CMA has been asked to develop a backup screen for the following family of undercounter dishmachines (L-1X, L-1X16, L-1C, GL-X). If the operator of the dishmachine forgets to install the standard "Drain Screen", the "Secondary Screen" will prevent debris from entering the pump assembly, eliminating service calls. The "Secondary Screen" is easy to install, by simply aligning with the Pump Inlet and then snapping into place. The "Secondary Screen" is easily removable for cleaning.
