

# Introducing The New

# CMA 181GW

# NEW

The CMA Model 181GW sets a new standard in underbar automatic glasswashers. No other manufacturer offers you so much new technology, in conjunction with long lasting durability. Our proven 70°F rise Safe-T-Temp booster heater, and standard Stainless Steel top and sides are only some of the many features offered. All CMA dishmachines high-temperature units will not go into final rinse until the water is at least 180°F. This is the temperature where real "hot water sanitizing" begins.

#### STANDARD FEATURES:

- 16 gauge 304 Stainless Steel wash tank.
- 30 racks per hour or 600 glasses per hour (20 per 20X20 rack).
- .86 gallons of water per cycle or rack.
- Safety-T-Temp booster heater capable of a 70°F rise. (3 minute cycle)
- Detergent and rinse chemical pumps.
- Fresh water rinse through upper and lower rotating arms.
- Rotating upper and lower wash arms for maximum glass surface coverage.
- Removable Stainless Steel pump protection screen for easy cleaning.
- Large 11-1/4" door opening.
- Raised wash chamber reduces "bending over" to remove racks.
- 6" legs for increasing the overall height to 40".
- Top-mounted controls for easy operation and monitoring of all temperatures.
