

SERVICE BULLETIN

Effective Date: AUGUST 1, 2014
Log Number: 127
Subject: BLACK NORPRENE SQUEEZE TUBE PN 835.30
Model Affected: CMA-180UC/181/GL-C/GW-100

Black Norprene Squeeze Tube

CMA continues to listen to those that matter (our customers). By request, CMA is introducing a “new” high quality Norprene “Detergent and Sanitizer” Squeeze Tube, which has an increased flow rate that provides a wider range of chemical output. The variable speed control will have a wider range of adjustment, to minimize or maximize the volume of product required for each individual account. This versatile, high performance Norprene tube exhibits excellent chemical resistance to a broad range of warewashing products.
